

## ACC-FV/ACC-V

## VENTILATION MAXIMIZING RISERS & VELCRO® ACCESSORY KIT

ACC-FV

Open up placement possibilities for your HD Flow Wireless Multimedia Kit using the Peerless-AV Ventilation Maximizing Riser and Velcro® Accessory Kit. Easily tuck HD Flow units out of sight in a vertical or horizontal position, behind TVs, on top of projectors or anywhere around AV equipment, with confidence there will be proper airflow for ideal operation. Want to use an HD Flow unit in more than one room at different times? Then the additional pro-grade Velcro Kit Accessory (Velcro® Kit Accessory (ACC-V)) provides a simple solution to easily remove and replace a unit whenever and wherever it's needed. The HD Flow Wireless Multi-Media Kit freed the TV, now the Ventilation Maximizing Riser and Velcro® Accessory Kit provide maximum placement options for HD Flow units.

ACC-V

Compatible with HD Flow (HDS100, HDS100-x, HDS-T and HDS-R) Models

### PROPER AIRFLOW

Elevates units for proper airflow, assisting to maintain ideal operating temperature

### UNLIMITED MOBILITY

ACC-V accessory makes it easy to move HD Flow units wherever and whenever needed

### LOW-PROFILE

Simple design maximizes the low-profile of HD Flow units

# VENTILATION MAXIMIZING RISERS & VELCRO® ACCESSORY KIT

ACC-FV/ACC-V

## Features

- Allows for proper ventilation of HD Flow units attached vertically or horizontally to the side, back or top of a TV, projector or any AV equipment. *(IR functionality may be impaired if HD Flow receivers are placed out of sight).*
- Pro-grade Velcro® provides a secure hold and allows for easy mobility of HD Flow units
