

STABILIS

HOME SAFETY KIT

ACSTA1

Home Safety Kit for LCD and Plasma screens

- Secure your flat panel TV and protect your family from the risk of injury
- STABILIS screen safety kit is an effective, universal solution to secure flat panel screens in the home
- Manufactured and tested to prevent children accidentally pulling large screens forward onto themselves
- Fits a full range of LCD & Plasma screens for 32" to 60" with telescopic height adjustment
- Rigidly clamps to all types of furniture or can be screwed directly to a wall or TV cabinet
- Rotational mounting plate allows screen to swivel while rigid design also prevents tipping backwards
- 'One size fits all' - compatible with new flat panels sales as well as existing screens already in homes
- Protects pets from injury due to falling screens and reduces chance of them damaging expensive flat panels
- Delays opportunist theft by securely attaching screen to furniture or wall
