

Screen Cleaning Gel 200ml

For LCD, LED and Plasma flat panel TVs & Desktop or Laptop PC monitors

CLEAN YOUR SCREEN SAFELY!

Many cleaners 'suitable' for LCD and Plasma screens use alcohol. Regular cloths or dusters can leave microscopic scratches on the delicate screen surface. Alcohol can penetrate these scratches, seeping into the electronics behind the screen. This can not only degrade picture performance, but also lead to total failure of the screen that may not be covered under warranty.

Peerless-AV cleaning gel does not use alcohol and the gentle yet effective microfibre cloth cannot scratch the screen surface! 200ml of alcohol-free, anti-run cleaning gel spray with washable microfibre cleaning cloth stored in bottle cap.

Features & Benefits

- Screen cleaning gel for LCD, LED & Plasma flat panel TVs and desktop & laptop computer monitors
- Gentle yet effective washable microfibre cleaning cloth (195mm x 195mm) will not scratch delicate screen surface
- Microfibre cleaning cloth stows in bottle cap when not in use
- Alcohol-free, anti-run cleaning gel spray cleans screen without penetrating any screen scratches
- Simple 2-stage cleaning action: spray cool screen with 1-2 squirts of gel, wipe screen clean with microfibre cloth
- Always consult User Manual for AV equipment before use to ensure product is suitable
